

Dear Company:

I would like to show you my application for working at your company. I would like doing an Internship to finish my degree: Media studies and Audiovisuals Systems Engineering. This degree is Telecommunications Engineering focused in acoustic, web developer, sound and image. I will lend you a link for looking at my degree in Spain: <https://www.urjc.es/estudios/grado/637-ingenieria-en-sistemas-audiovisuales-y-multimedia#itinerario-formativo>.

It would be from October 2021 to January 2022. I need to complete 305 hours.

Apart from that, I have a course of Audiovisual Postproduction with After Effects and you can see my skills and my languages in my CV.

I have more skills that you cannot see in the CV: NetGUI, Scratch, Tinkercad, Arduino, Total Code and knowledge in TCP/IP Architecture and BGP and OSPF protocols.

In other matters, I have experience as a robotic teacher in Ebot Company, as a support teacher of Science subjects in Donfer Academy for teenagers between 10-16 years. And I have experience as a home teacher for individual classes of Science subjects.

I have the B2 level of English, certified by the British Council. Also, I have the A2 level of French, certified by DELF.

I have the B driving license and my own car. I am available from Monday to Friday at whatever hour, except Thursday from 10 AM to 12 AM.

To conclude, I hope that you like my profile and my presentation. If you take me on, I will work at 100% in whatever project that you give me.

Thank you for your attention.

Yours faithfully.

Alejandro.
